Here's how we can protect ourselves and others

- Get vaccinated, booster vaccination 5 months after primary immunisation
- Spacing, hygiene, mask during daily life, ventilation
- Break infection chains through regular testing
- Stay at home if you have symptoms of respiratory disease
- 2G rule (vaccinated or recovered) or 2G+ rule (vaccinated or recovered plus test) applies to adults indoors, 3G (vaccinated, recovered or tested) applies at the workplace and on public transport.
More 2G Plus and lockdown for the unvaccinated

2G rule = vaccinated or recovered
- Applies to outdoor areas such as outdoor catering, outdoor sports, outdoor recreational facilities.

2G Plus rule = vaccinated or recovered + negative test
- Applies to all indoor areas
- Self-test possible on site under supervision
- Exception: People with booster vaccination (status applies from day of booster vaccination)

Exceptions apply to minors
- Children under 12 years and 3 months do not need a test
- 3G applies to unvaccinated children up to and including 17 years of age.

Contact restrictions apply to those who have not been vaccinated
- Meeting in public space only with own household and with 2 person of another household
- Minors are not counted
The 3G rule (vaccinated, recovered or tested) applies on buses, trains and planes. Checks are carried out on a random basis.

The negative test certificate may not be older than 24 hours. No self-test.

Exceptions apply for children up to the age of 6, schoolchildren and for taxi rides.

Masks are still compulsory.
3G at the workplace

- Access to the workplace only with 3G status: vaccinated, recovered or tested.

- Employer must check status.

- Rapid tests valid for 24 hours, PCR tests valid for 48 hours.

- Submission of a self-test not sufficient. On-site testing possible under supervision.

- Home office to be implemented wherever possible.
Child vaccinations from 16 December

- Vaccination for children from the age of 5 with BioNtech from 16 December.

- Registration possible for vaccination centres since 1 December: impftermin.rlp.de.

- Paediatricians are the first point of contact.

- Vaccination centres: additional family vaccination days with registration.

- Parents of registered children have the option of booster vaccination (5 months after second vaccination).
Overview of vaccination centres

9 vaccination centres are currently offering vaccinations:

- Germersheim/Südpfalz Vaccination Centre
- Kaiserslautern Vaccination Centre
